DANIEL HERNÁNDEZ RUBIO

Fullstack Software Engineer

Pachuca, Hidalgo, Mexico | danielhrubio3@gmail.com | linkedin.com/in/daniel-hernández-rubio | github.com/DanielHR3 | danielhr3.github.io

PROFESSIONAL SUMMARY

Fullstack software engineer experienced in offline-first web, mobile and desktop products. I work end to end in TypeScript (Next.js, NestJS, Angular), Go and Python on PostgreSQL/PostGIS, and deploy on AWS and Google Cloud. I practice AI-agent-assisted development with user stories, an OpenAPI contract, automated tests and human review of every change. Three products of my own in production.

PROFESSIONAL EXPERIENCE

Government of the State of Hidalgo — Pachuca, Mexico
Software Engineer — Apr 2026 – Present

- Develop institutional software under an AI-agent-assisted framework: APIs with NestJS and PostgreSQL/PostGIS, portals with Next.js, mobile apps with Expo and internal tools in Python and FastAPI.
- Lead technical project planning, audit legacy systems for modernization and review deliveries from external vendors.

IntegraMed — Pachuca, Mexico
Software Developer (Angular and TypeScript) — Sep 2024 – Apr 2026

- Developed and maintained web applications for the healthcare sector with Angular and TypeScript.

Independent Developer — Remote
Own products and clients — Jan 2023 – Present

- Design, build and operate three products in production: SheepMaster, VetSys Pro and Pañuelo sin efecto.

Government of the State of Hidalgo — Pachuca, Mexico
IT Assistant — Apr 2022 – Mar 2023

- Provided technical support, maintained databases and trained end users.

PROJECTS

Pañuelo sin efecto — Next.js, NestJS, Prisma, PostgreSQL

- Offline-first PWA for refereeing and managing flag football leagues; plays are stored in IndexedDB and synced on reconnect.

SheepMaster — Go, Wails v2, React, SQLite, Supabase

- Sheep herd management for desktop and PWA: weighing, breeding, treatments and pedigree.

VetSys Pro — Next.js, FastAPI, PostgreSQL, Cloud Run

- Multi-tenant SaaS for veterinary clinics: records, appointments, inventory and sales, with per-clinic isolation and subscription checks on every request.

EDUCATION

Digital University of the State of Hidalgo (UNIDEH) — Hidalgo, Mexico
B.Eng. in Software Engineering — Completed

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Go, Python, SQL
Frontend: Next.js, React 19, Angular, Tailwind CSS, TanStack Query, shadcn/ui, PWA
Backend: NestJS, FastAPI, Prisma, TypeORM, SQLAlchemy, OpenAPI/Swagger, JWT
Data: PostgreSQL, PostGIS, SQLite, IndexedDB, MySQL, Supabase, Neon
Mobile and desktop: Expo, React Native, Wails, Leaflet, OpenLayers, Mapbox
Cloud and DevOps: AWS (CloudFront, S3, EC2, RDS, SES), Google Cloud Run, Firebase, Docker, GitHub Actions, MinIO
AI and agents: Claude Code, Gemini CLI, OpenAI, Gemini and Claude APIs, RAG, LangChain, MCP, n8n
Testing: Jest, Supertest, Vitest, Playwright, pytest
Languages: Spanish (native), English (basic / technical)

CERTIFICATIONS AND COURSES

Prompt Engineering for Real Life, DevTalles — 2026
Ultimate Python: Zero to Expert, Udemy — 2026
TypeScript: Complete Guide, DevTalles — 2024
